NEW PRODUCT RELEASE

Eddie Current Announces the **EC-01** Single Ended Triode Headphone Integrated Amplifier

Eddie Current is proud to announce a compact, high quality headphone amplifier, the EC-01. Partnering with our audio manufacturing comrade, the Laconic Company based in Latvia, the EC-01 is an all triode, OTL topology intended to drive 60 to 600 ohm headphones. Each EC-01 is painstakingly hand made, with point-to-point wiring used in all signal circuits. Heavy-duty military tie points are used throughout, and high quality components make this amplifier a benchmark of superior sound for the dollar. All EC-01 amplifiers are tested, burned in, and come with a USA warranty.

Specifications:

Headphone amplifier:

- **Gain 22dB**
- **Max output 19V peak driving 300 ohms, or 1.2 watts.**
- **Frequency Response driving 300 ohms -0.5dB 10Hz and 200kHz.**
