

Moth Audio Corporation

TRADE MARK

300B PARADIGM \$1,995.00
10 watts per channel stereo amplifier
with front panel volume control.
Single-ended class A1 no feedback.
Output circuit uses a negative power
supply with an autoformer plate load.
Output Tubes Not Included.

si300 \$2,495.00

10 watts per channel integrated stereo
amplifier with front panel volume
control and 3 input selector switch.
Single-ended class A1 no feedback
reactance drive.
Output Tubes Not Included.

S45 \$1,795.00

2 Watt reactance drive stereo amplifier.
Adjustable bias, zero feedback design.
Can be used with Sovtek 2A3 tubes
for 5 Watts.
Output Tubes Not Included.

si2A3 \$1,995.00

3 watts per channel integrated stereo
amplifier with front panel volume
control and 3 input selector switch.
Single-ended class A1 no feedback
DC coupled design.
Output Tubes Not Included.

Moth Audio Corporation

TRADE MARK

m304TL \$9,600.00

35 watt single-ended class A,
vacuum magnetic monaural
amplifier.

SPHYNX \$4,600.00

Stereo vacuum tube balanced
line out amplifier with phono
preamplifier circuit intended
for use with high output
moving coil or moving
magnetic cartridges.

pv4 \$1,050.00

Passive volume control with
4 input selector & tape
monitor.

ps5 \$395.00

Passive 5 input selector with tape
out.
